

USING FLIP WITH ELEMENTARY LEARNERS...

ALL YEAR LONG!

Easy-to-use tech is pivotal in helping elementary learners stay focused, energized, and engaged in classroom discussions.

When you use Flip, you actually flip your classroom, giving students more agency to actively engage in learning discussion and providing a safe space for them to build learning foundations like reading fluency, math fluency, language proficiency, social emotional development, and teamwork. The result?

84% of educators using Flip say their students were more engaged once they started using the app and they would recommend Flip to others!

Introductions

Introduce yourself to the class, teach us how to pronounce your name, and share a fun fact about yourself.

Goal Setting

Set three goals for the upcoming school year, and at the end of the year, reflect on your learning journey and celebrate your accomplishments!

Book Talks

Share a book reflection, you new learnings or even a recommendation for why others should read it too!

Pen Pals

Make classroom connections with and get to know students in a different country to better understand their culture and teach them about yours.

Global Holiday Celebrations

Each week, we'll learn about a new holiday celebration and the culture or religion it originated from.

Earth Day

Throughout April, learn about various climates and weather patterns, and then develop and share individual goals to help reduce your carbon footprint.

Art Gallery

Record a video to explain your art piece, and we'll display it alongside your art using a FlipAR code during the art fair.

Talent Show

We all have unique talents! Share your talent with the class and be sure to comment on the many talents of your classmates.

Messages to your Family

Share and celebrate learning from your perspective. Tell others about the favorite things you have learned this year.
